**RE: TOWN OF LIMA PUBLIC WATER SUPPLY**

Dear Resident or Business Owner:

Public water has been a topic of discussion for many property owners in the Town of Lima over the past 10-years. The Town Board has completed a preliminary investigation into extending public water along all roadways currently without water, showing it is feasible to consider with State and Federal funding. However, the Board would like feedback in order to help guide any future decisions.

As a property owner in the area, we are asking your opinion as to your desire to obtain public water. The information obtained from these surveys will be used by the Board to determine if public water should be pursued and the areas that should be included. The survey is web based and can be accessed through the link below or by the QR code on your phone. If you would prefer to obtain fill out a hard copy of the survey form, please contact the Town Clerk at [clerk@town-oflima.org](mailto:clerk@town-oflima.org) or (585) 582-1130 and one will be mailed to you. Please complete the survey by August 31, 2021

<https://forms.office.com/r/0JpzJifgBH>

In addition to the survey, we have also enclosed an informational bulletin that includes a map of the proposed project area, key facts regarding the process, anticipated costs, and some frequently asked questions.

We are in the very preliminary stage of this process and the information provided is considered “draft”. Should things progress the information will be finalized and there will be opportunities to express your views at public meetings. In addition, you will be updated along each step of the way.

We would also like to point out that an income survey will be mailed to you separately, which will be used to determine the level of grant funding available to the Town.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Mike Falk', with a long horizontal line extending to the right.

Mike Falk  
Lima Town Supervisor
